Set, Film Marking, X-Ray, Plastic

SOURCE: Tokyo, Japan.

IMPORTANCE: Not previously reported. A set of film markers with a plastic base for quick changing of film markings.

DESCRIPTION: This set is contained in an imitation leather covered, wooden box, 12" x 9" x 2", which is divided into forty-two (42) compartments. There is an inside cover designed to hold the numbers and letters in place.

The compartments contain the following:

| | | |
|--|----|---|
| 1. Letters "A" thru "Z" | ea | 3 |
| 2. Universal biological symbols for "Male" and "Female" | ea | 3 |
| 3. "+" (plus) sign | ea | 3 |
| 4. "-" (minus) sign | ea | 3 |
| 5. ":" (period) | ea | 3 |
| 6. ":" (apostrophe) | ea | 3 |
| 7. Digits "0" thru "9" | ea | 3 |
| 8. Forceps, plain, 5" | ea | 1 |
| 9. Holder, plastic | ea | 1 |

The markers are made of lead fastened on a plastic square, 1 1/2" x 1/2". The size of the lead numerals and letters is about 1" x 1/2".

COMMENT: The only unusual and interesting feature of this set is that the lead numerals and letters have a plastic back which fits into a plastic holder. The holder can be fastened to a cassette or cassette holder and the numbers and letters changed quickly and easily.
